We offer 10 international places for this unique programme, where you get together with about 50 young people from Freiburg through creativity.

Context

The international ArtCamp is part of the annual project JugendKunstParkour (YouthArtsParkour) that starts in March and ends in July with a little festival. This years slogan is "BECOMINGLIMITLESS", as we invite you as international guests with your ideas and questions to join our programme as part the 900th anniversary of the city of Freiburg 2020. The concept of participatory organisation and self-directed management of young people gives the project a special quality compared to other young arts projects. A group of young people is responsible for the programme – they develop the specific events, as well as the process is supported by professional artists and cultural educators.
